

# Nebraska Regional Interoperability Network(NRIN) User Form

*Nebraska Regional Interoperability Network (NRIN) is an IP (“Internet Protocol”) microwave and fiber network that utilizes towers across the state of Nebraska. It connects the PSAPs (Public Safety Answering Points) or 911 centers across the state, and can share data across the state in a secure and reliable fashion.*

Other

---

Are there any specific locations that you wish to have access to NRIN?

---

Please provide a detailed description of your plans to utilize the NRIN Network below.

Please initial in the boxes below that you have read and understood the statements below and agree to the policy as listed. Please then print your name and sign in the designated areas listed within the section.

I understand that there will be no transport of public internet inside or outside of the Nebraska Regional Interoperability Network.

I understand that I am required to submit a form for a technical feasibility review of my proposed connection to the network to the Nebraska Regional Interoperability Network Governance Board and the Nebraska Office of the Chief Information Officer (OCIO), and that all requesting users are responsible for technical costs related to their connection to the Nebraska Regional Interoperability Network.

I understand that once a Nebraska Regional Interoperability Network (NRIN) User Request is approved, I must make the required technical upgrade completions in order to connect to Nebraska Regional Interoperability Network.
