#### Project Budget Work Plan Summary:

Total allocation must meet the 25% Law Enforcement Requirements

	Equipment	Planning	Exercise	Training	M&A	TOTALS
Equipment Request:					N/A	-
PET Request:	N/A	21,000.00			N/A	21,000.00
LE / IED Request:					N/A	-
CBRNE Request:					N/A	-
MOU Request To SAA:					N/A	-
Total Project Request:	-	21,000.00	-	-	N/A	21,000.00

#### Project Baseline Overview:

##### Project Description:

Must provide details that identify who the recipients are, what they are receiving, where it is to be located, provided, implemented or installed. When the proposed project is to begin and end. Why this project is a priority for the region.

##### Provide High Level Project Baseline Detail Here:

The Tri-County is requesting \$21,000 (AEL #100HF-01-GASA) to manage and administer the Tri-County's FY2015 SHSG award. The Management & Administration (M&A) funding will be allocated to the Homeland Security Grant Assistant position at the City of Omaha. The City of Omaha is the fiscal agent for the Tri-County SHSG awards.

The Grant Assistant will be responsible to provide administrative support for the Tri-County Working Group, ensuring that project goals are met effectively and on time. Additional tasks include federal and state reporting compliance (i.e. Biannual Strategy Implementation Report, NEMA monitorings), coordination of Tri-County equipment procurement in compliance with local, state, and federal procurement guidelines, serves as a liaison between the Tri-County Planning, Exercise, and Training (PET) Region and NEMA, and submits timely reimbursement requests through the Nebraska Grants Management System (GMS). This investment will sustain the core capability of planning.

The Tri-County PET Region has effectively meet their Homeland Security goals, and works to expensed all funds within the grant period and the Tri-County Region has built strong regional partnerships in the process. The State Homeland Security Grant Program M&A provides the administrative support that allows the Tri-County PET Region to build and maintain the capabilities necessary to prevent, protect against, respond to, and recover from threats, acts of terrorism, or natural disasters.

**National Priorities**

Identify the National Priorities this Project supports.

National Priority 1

1. Alignment of HSGP to the National Preparedness System

National Priority 2

**Project Detail:**

Provide a summary description of this Project on how it aligns with the selected National Priorities, Core Capabilities and identify the objectives that will be met during and after the grant performance period. Include in this description the detail that addresses the status of this Project as a new or ongoing project. Provide additional detail that identifies the Core Capability gap or gaps this Project intends to address.

Provide Project Detail Here, complete with money amounts, specific lists of equipment and what county/entity it is going to:

The Grant Assistant will be responsible to provide administrative support for the Tri-County Working Group, ensuring that project goals are met effectively and on time. Additional tasks include federal and state reporting compliance (i.e. Biannual Strategy Implementation Report, NEMA monitorings), coordination of Tri-County equipment procurement in compliance with local, state, and federal procurement guidelines, serves as a liaison between the Tri-County Planning, Exercise, and Training (PET) Region and NEMA, and submits timely reimbursement requests through the Nebraska Grants Management System (GMS). This investment will sustain the core capability of planning.

The administrative support provided by the Grant Assistant allows the Tri-County PET Region to build and maintain the capabilities necessary to prevent, protect against, respond to, and recover from threats, acts of terrorism, or natural disasters.

**State Homeland Security Strategy**

Select Primary Goal and up to Two Objectives that support this Project. Click in the box and < SELECT > from the Dropdown Menu. ( NOTE: Goals and Objectives should match... i.e. Goal A – Objective A.1, A.2, A.3 etc. )

**Primary Goal**

GOAL 9: (NEMA ONLY) The State Administrative Agent (SAA) will meet funding and monitoring deadlines for 100% of each grant managed in support of the state's homeland security program.

**Primary Objective**

< SELECT >

**Secondary Objective**

< SELECT >

Explain how this Projects supports the State Homeland Security Strategy goals and objectives. Please reference the relevant goal and objectives in the detail from the State Homeland Security Strategy.

**Provide Project Goal & Objective Detail Here:**

The Grant Assistant will be responsible to provide administrative support for the Tri-County Working Group, ensuring that project goals are met effectively and on time. Additional tasks include federal and state reporting compliance (i.e. Biannual Strategy Implementation Report, NEMA monitorings), coordination of Tri-County equipment procurement in compliance with local, state, and federal procurement guidelines, serves as a liaison between the Tri-County Planning, Exercise, and Training (PET) Region and NEMA, and submits timely reimbursement requests through the Nebraska Grants Management System (GMS). This investment will sustain the core capability of planning.

The Tri-County PET Region has effectively meet their Homeland Security goals, and works to expensed all funds within the grant period and the Tri-County Region has built strong regional partnerships in the process. The State Homeland Security Grant Program M&A provides the administrative support that allows the Tri-County PET Region to build and maintain the capabilities necessary to prevent, protect against, respond to, and recover from threats, acts of terrorism, or natural disasters.

This investment ties in with Goal #9 (Administration of Funds) of the 2014-2016 Nebraska State Homeland Security Strategy (dated January 23, 2014).

**Milestones**

Identify all project Milestones and provide details for each milestone. Include Start and End dates that may have an affect on the implementation and completion of this Project.

Milestone #1

FY2015 SHSG fiscal and programmatic grant administration, including: Coordination of Tri-County equipment procurement, coordination between the Tri-County Planning, Exercise, and Training (PET) Region and the Nebraska Emergency Management Agency (NEMA), and the submission of timely reimbursement requests through the Nebraska Grants Management System (GMS).

Start Date: 9/1/15

End Date: 8/31/17

Milestone #2

Completion of Biannual Strategy Implementation Report (BSIR).

Start Date: 1/1/16

End Date: 1/15/16

Milestone #3

Completion of Biannual Strategy Implementation Report (BSIR).

Start Date: 8/1/16

End Date: 8/15/16

Agency / Region / Tribe: Tri - County Region

Grant Fund: SHSP Grant Year: 2015 Date: 4/10/15

Project Allocation: Total \$\$ 311,000.00 LE / IED \$\$ - MOU \$\$ -

Investment Plan: Planning, Exercise and Training (PET)

DHS Project Type: Establish / enhance sustainable Homeland Security Planning Program

Project Title: Tri-County Planning, Exercise, and Training (PET)

Project Status: Ongoing MOU Request to SAA

Note: If the Project includes making an MOU request to the SAA, include project details from the Project Description as part of an official letter requesting the MOU. The letter may be submitted prior to the work plan submission addressed to the SAA.

Project Budget Work Plan Summary:

Total allocation must meet the 25% Law Enforcement Requirements

Table with 6 columns: Equipment, Planning, Exercise, Training, M&A, TOTALS. Rows include Equipment Request, PET Request, LE / IED Request, CBRNE Request, MOU Request To SAA, and Total Project Request.

Project Baseline Overview:

Project Description: Must provide details that identify who the recipients are, what they are receiving, where it is to be located, provided, implemented or installed. When the proposed project is to begin and end. Why this project is a priority for the region.

Provide High Level Project Baseline Detail Here: The Tri-County PET project will enhance regional response capabilities through a comprehensive planning, exercise, and training program. The Tri-County PET project will sustain the following core capabilities: planning, operational coordination, community resilience, mass search and rescue operations, public and private services and resources, threats and hazard identification, on-scene security and protection, and interdiction and disruption. The Tri-County Working Group has designated the Tri-County PET Sub-Committee as the body through which all Tri-County PET activities are initiated, planned, executed, and reported. The Tri-County PET Sub-Committee meets on a monthly basis and maintains a multi-year PET calendar. The Tri-County will utilize this regional multi-year PET calendar to coordinate all PET requests outlined in the FY2015 SHSG Investment Justification (IJ) work plan. Planning: Nebraska Preparedness Partnership (NPP): The Tri-County Critical Infrastructure/Key Resources Committee is requesting \$50,000 (AEL #140.HF.02.COLT) to provide program support for the NPP. The NPP is a coalition of the state's business and government leaders who share a commitment to strengthen the capacity of the state to prepare for, respond to, and recover from disasters through public-private collaboration. Created in 2014 by Nebraska businesses and representatives from key state agencies, the NPP empowers private sector businesses to integrate resources, expertise, and plans with those of government during all stages of disaster management. Nebraska is one of only eight states in the country that does not have a critical infrastructure entity helping to coordinate business involvement. The purpose of this project will be to create a truly public/private partnership. The NPP project will enhance and sustain the core capabilities of community resilience and public and private services and resources. Tri-County Citizen Corps Program (CCP): The Tri-County Citizen Corps Council is requesting \$100,000 (AELs #21GN-00-CCEQ and #140.HF.01.PDSA) to support the Tri-County Citizen Corps Program (CCP). The funding will be used to hire a Citizen Corps Coordinator in charge of all five Citizen Corps partner programs: Community Emergency Response Team (CERT), Fire Corps, Medical Reserve Corps (MRC), Neighborhood Watch, and Volunteers in Police Service (VIPS). In addition, program funding will support public education/outreach and training activities for CCP volunteers during the course of the grant performance period. Tri-County CCP support will sustain the core capability of community resilience. Whole Community Threat Assessment (WCTA): The Tri-County PET Sub-Committee is requesting \$60,000 (AEL #140HF-02-COLT) to conduct whole community threat assessments for each of the three counties within the Tri-County PET Region. The WCTA will be used to further define and compile risk factors in order to prioritize threats within each of the three counties to focus efforts in community preparedness planning. Based on the data received from the community, threats will be ranked and assessed. The outcomes of the assessment will be used to further evaluate preparedness activities and reveal needs for public outreach and education. It is anticipated that threats will be ranked by a variety of community stakeholders and sectors of the public to reveal the current threats as perceived by the public. After the data is compiled and a written report of the findings is delivered, further planning, training, and exercising resources will be utilized and prioritized. The whole community threat assessment will sustain the core capability of threats and hazard identification. Training: Mastering Command - Calm the Chaos - all risk/all type simulator workshop: The Tri-County Fire Committee is requesting \$29,000 (AEL #120HF-01-FPCC) to conduct a multi-discipline training workshop. The Mastering Command - Calm the Chaos - all risk/all type simulator workshop is a 4-day/32-hour training for 50 students that teaches participants Incident Command System (ICS) principles through the use of type 1 through type 5 all risk incidents. The Mastering Command training workshop will sustain the core capability of operational coordination. ICS 300/400 Training Program: The Tri-County PET Sub-Committee is requesting \$10,000 (AEL #120HF-01-FPCC) to conduct a total of six (6) ICS 300/400 training courses throughout the grant performance period. The Tri-County PET Sub-Committee will coordinate with emergency managers and first responder agencies to identify key personnel in need of this valuable training. The ICS 300/400 training will sustain the core capability of operational coordination. Omaha Police Department (OPD) / Omaha Fire Department (OFD) Joint Active Shooter Training: The Tri-County Law Enforcement and Fire

- Omaha Police Department (OPD) / Omaha Fire Department (OFD) Joint Active Shooter Training: The Tri-County Law Enforcement and Fire Committees are requesting \$25,000 (AEL #120HF-01-FPCC) to conduct a joint active shooter training. The purpose of the training is to practice and improve upon the Rescue Task Force (RTF) concept detailed in the Tri-County's FY2014 SHSG work plan. The joint active shooter training will sustain the core capabilities of mass search and rescue operations and on-scene security and protection.
- Management of Water and Flood Incidents (MWF) training: The Tri-County Rural Fire Committee is requesting \$22,000 (AEL #120HF-01-FPCC) to conduct a multi-jurisdictional water and flood incident training. This training will involve fire personnel from various Tri-County fire departments and will build on the operational coordination and mass search and rescue operations core capabilities gained through the Swiftwater Rescue Training detailed in the Tri-County's FY2012 SHSG work plan.
- Bomb Squad Technician Training: The Tri-County Law Enforcement Committee is requesting \$10,000 (AEL #120TP-01-TRPL) for the travel and per diem cost associated with sending one member of the Omaha Police Department (OPD) bomb squad to the eight-week long FBI Hazardous Devices School bomb technician certification training in Huntsville, AL. The technician certification training will sustain core capability of interdiction and disruption.
- Basic SWAT School Training: The Tri-County Law Enforcement Committee is requesting \$5,000 (AEL #120OE-01-OBFT) to conduct a multi-jurisdictional Basic SWAT School training and certification for approximately 14 Tri-County area law enforcement special teams personnel. The Basic SWAT School training will sustain the core capabilities of on-scene security and protection, and interdiction and disruption.

**National Priorities**

Identify up to four National Priorities this Project supports.

National Priority 1

1. Alignment of HSGP to the National Preparedness System

National Priority 2

2. NIMS Implementation

National Priority 3

< SELECT >

National Priority 4

< SELECT >

**Core Capabilities**

Select a Primary Core Capability and up to four Secondary Core Capabilities this project supports.

Primary Core Capability

Planning

Select additional Core Capabilities that may apply

Secondary Core Capability (1)

Operational Coordination

Secondary Core Capability (2)

Community Resilience

Secondary Core Capability (3)

Mass Search and Rescue Operations

Secondary Core Capability (4)

Public and Private Services and Resources

**Project Detail:**

**Provide a summary description of this Project on how it aligns with the selected National Priorities, Core Capabilities and identify the objectives that will be met during and after the grant performance period. Include in this description the detail that addresses the status of this Project as a new or ongoing project. Provide additional detail that identifies the Core Capability gap or gaps this Project intends to address.**

**Project Detail Here, complete with money amounts, specific lists of equipment and what county/entity it is going to: Tri-County Planning, Exercise, and Training Budget:**

Planning -	\$210,000	Nebraska Preparedness Partnership (NPP) - \$50,000 Tri-County Citizen Corps Program (Tri-County Citizen Corps Council) - \$100,000 Whole Community Threat Assessment (Emergency Management Agencies) - \$60,000
Training -	\$101,000	Mastering Command Training (Tri-County Fire Depts.) - \$29,000 Incident Command System (ICS) Training Program (Tri-County) - \$10,000 Omaha Police Dept. (OPD)/Omaha Fire Dept. (OFD) Joint Active Shooter Training - \$25,000 Management of Water and Flood Incidents Training (Tri-County Fire Depts.) - \$22,000 Bomb Squad Technician Certification Training (OPD) - \$10,000 Basic SWAT School Training (Tri-County Law Enforcement Depts.) - \$5,000
<b>Total</b>	<b>\$311,000</b>	

The Tri-County PET project will enhance regional response capabilities through a comprehensive planning, exercise, and training program. The Tri-County PET project will sustain the following core capabilities: planning, operational coordination, community resilience, mass search and rescue operations, public and private services and resources, threats and hazard identification, on-scene security and protection, and interdiction and disruption.

The Tri-County Working Group has designated the Tri-County PET Sub-Committee as the body through which all Tri-County PET activities are initiated, planned, executed, and reported. The Tri-County PET Sub-Committee meets on a monthly basis and maintains a multi-year PET calendar. The Tri-County will utilize this regional multi-year PET calendar to coordinate all PET requests outlined in the FY2015 SHSG Investment Justification (IJ) work plan.

**Nebraska Preparedness Partnership:**

The Presidential Policy Directive/PPD-21 "Critical Infrastructure Security and Resilience" outlines two strategic imperatives: 1) to refine and clarify functional relationships and 2) to strengthen critical infrastructure and resilience and enable efficient information exchange. These imperatives are specifically addressed by the NPP through better involvement with Emergency Management as well as through the Business Resource Directory. The Business Resource Directory will provide a comprehensive list of critical assets and resources that would be available during a community emergency. The NPP is already leveraging relationships with the Nebraska Information and Analysis Center (NIAC) and has a dedicated security portal through the Homeland Security Information Network (HSIN) in the State of

Nebraska.  
All disasters begin and end at the local level. The NPP is committed to leveraging the assets of all Nebraska communities, including the public sector, private sector, non-profits, and the general public. This "Whole Community" will provide the most effective avenue to prepare for, protect against, respond to, recover from, and mitigate against any disaster.

**Mission Statement**

Building the readiness of private stakeholders in Nebraska to prepare, mitigate, respond and recover from disasters through advocacy, training and public partnerships.

**Governance**

The Nebraska Preparedness Partnership shall be governed by a Board of Directors. Day-to-day management of the operation, staff, and activities will be provided by an Executive Director.

**Budget**

**State Homeland Security Strategy**

Select Primary Goal and up to Two Objectives that support this Project. Click in the box and < SELECT > from the Dropdown Menu. ( NOTE: Goals and Objectives should match... i.e. Goal A -- Objective A.1, A.2, A.3 etc. )

**Primary Goal**

GOAL 1: State agencies, planning, exercise and training (PET) regions, and counties in Nebraska will have active planning, exercise, and training programs in place as evidenced by approved PET calendars; approved emergency operations plans; and regional exercise design and training teams in place by December 31 annually

**Primary Objective**

Objective 1.2 Incorporate core capabilities and gaps into PET plans by January 31 annually

**Secondary Objective**

Objective 1.3 Complete annual review of emergency operations plans by March 15 annually

Explain how this Projects supports the State Homeland Security Strategy goals and objectives. Please reference the relevant goal and objectives in the detail from the State Homeland Security Strategy.

**Provide Project Goal & Objective Detail Here:**

This investment will support the following goals and objectives of the 2014-2016 Nebraska State Homeland Security Strategy (dated January 23, 2014):

Goal #1 (Planning, Exercise, Training)

- Objective 1.2: Incorporate core capabilities and gaps into PET plans by January 31 annually
- Objective 1.3: Complete annual review of emergency operations plans by March 15 annually

Goal #7 (Critical Infrastructure/Key Resources - CIKR)

- Objective 7.3: Formalize a public/private partnership entity responsible for reaching out and engaging private CIKR partners in homeland security planning by December 31, 2015

Goal #8 (Citizen Corps)

- Objective 8.4: Maintain an 85% Citizen Corps Council or other related entities' participation rate in regional and state planning, exercise and training activities
- Objective 8.6: Cover each county by a Citizen Corps Council, or other related entity that coordinates public and private volunteer resources by December 31, 2015

**Milestones**

Identify all project Milestones and provide details for each milestone. Include Start and End dates that may have an affect on the implementation and completion of this Project.

Milestone #1	<p>NPP: Implement Business Reentry Program in Omaha, Create a Business Resource Directory Recruit an additional 15 businesses during 2015, Hire an Executive Director, Create Virtual Business Emergency Operations Center, Provide Infrastructure Protection certification training to local businesses, train EOC business liaisons</p> <p>Start Date: <input type="text" value="10/1/15"/> End Date: <input type="text" value="8/31/17"/></p>
Milestone #2	<p>Tri-County Citizen Corps Program: January 2016: prepare a job description, March 2016: post Coordinator position May 2016: interview candidates June 2016: finalize job filling (i.e. agreement) July 2016: Tri-County Citizen Corps Coordinator in place</p> <p>Start Date: <input type="text" value="10/1/15"/> End Date: <input type="text" value="8/31/17"/></p>
Milestone #3	<p>Whole Community Threat Assessment: November 2016: Request for Services (RFS) March 2017: Conceptual Design of Data Acquisition July 2017: Final Design for County-specific Data Acquisition November 2017: Retrieval and Evaluation of Data February 2018: Publish Final Report</p> <p>Start Date: <input type="text" value="10/1/15"/> End Date: <input type="text" value="2/1/18"/></p>

Milestone #4	<p>Mastering Command Training: The Tri-County Fire Departments will coordinate with the PET Sub-Committee to find a suitable training date, prepare the training scope, assemble a list of participants, conduct the training, and do a post-training evaluation.</p> <p>Start Date: <input type="text" value="10/1/15"/> End Date: <input type="text" value="8/31/17"/></p>
Milestone #5	<p>ICS Training: Schedule and conduct three (3) ICS 300 and three (3) ICS 400 trainings for Tri-County first responders during the grant performance period.</p> <p>Start Date: <input type="text" value="10/1/15"/> End Date: <input type="text" value="8/31/17"/></p>
Milestone #6	<p>OPD/OFD Active Shooter Training: The Omaha Police and Omaha Fire Departments will coordinate with the PET Sub-Committee to find a suitable training date, prepare the training scope, assemble a list of participants, conduct the training, and do a post-training evaluation.</p> <p>Start Date: <input type="text" value="10/1/15"/> End Date: <input type="text" value="8/31/17"/></p>
Milestone #7	<p>Water/Flood Incident Training: Schedule and conduct course, perform post-training evaluation.</p> <p>Start Date: <input type="text" value="10/1/15"/> End Date: <input type="text" value="8/31/17"/></p>
Milestone #8	<p>Bomb Squad Technician Training: The Omaha Police Department will send one (1) bomb squad technician to the eight-week long FBI Hazardous Devices School bomb technician certification training in Huntsville, AL. There is about a two year waiting period for attendees, placing the training in mid-2017.</p> <p>Start Date: <input type="text" value="1/1/17"/> End Date: <input type="text" value="8/31/17"/></p>
Milestone #9	<p>Basic SWAT School: Tri-County Law Enforcement will assemble a list of participants, conduct the Basic SWAT School certification training in September 2016, and assemble overtime and backfill documentation.</p> <p>Start Date: <input type="text" value="9/1/16"/> End Date: <input type="text" value="9/30/16"/></p>
Milestone #10	<p>Start Date: <input type="text"/> End Date: <input type="text"/></p>

**Impact & Sustainability**

Explain how this Project will impact your response capabilities, how the impact will be measured and how the solution areas will be sustained in regards to equipment maintenance, planning, exercising and training.

**Provide Impact & Sustainability Detail Here:**

Tri-County PET Region Impact:

- Enhance the Tri-County Citizen Corps Council's capabilities to recruit new volunteers, train existing volunteers, educate the public about disaster preparedness, and sustain the Citizen Corps Program (CCP).
- Enhance Tri-County multi-agency operational coordination through the implementation of a regional cross-discipline Incident Command System (ICS) training program.
- Enhance Tri-County Fire/Police operational coordination during active shooter incidents.
- Sustain Tri-County law enforcement special team capabilities by providing continuing training and certification of new and existing team members.
- Enhance Tri-County Fire Departments' water rescue capabilities.
- Expand a Critical Infrastructure/Key Resources (CI/KR) Nebraska Preparedness Partnership (NPP) organization to engage private sector businesses and nonprofit organizations in emergency preparedness and disaster response.

Sustainment will be managed through services in kind, leveraging agency budget is possible, NPP membership dues (for NPP activities only), and, if needed, future grant requests and allocations.

**Project requested by:**

Tri-County PET Sub-Committee

Project Baseline Overview:

Project Description:

Must provide details that identify who the recipients are, what they are receiving, where it is to be located, provided, implemented or installed. When the proposed project is to begin and end. Why this project is a priority for the region.

Provide High Level Baseline Detail Here:

The Tri-County Law Enforcement Improvised Explosive Device (IED) project will enhance the Tri-County PET Region's Law Enforcement abilities to prevent, protect against, mitigate, and respond to manmade threats and hazards including but not limited to improvised explosive devices (IED). This project will sustain the following core capabilities: interdiction and disruption, screening, search, and detection, on-scene security and protection, and operational communications.

The Bellevue Police Department will replace a LRV-1000-004 Pointman robot (serial #0153) originally purchased with FY2008 State Homeland Security Grant (SHSG) funding in 2011. The Bellevue Police Department has used the robot to provide mutual aid to the South Metro SWAT and the Sarpy County Sheriff's Office SWAT teams. During one of such mutual aid requests in August 2012, the robot was severely damaged when an armed and barricaded gunman shot the robot. The Bellevue Police Department subsequently had the robot repaired by the vendor but has found the repaired robot to be severely lacking in reliability. The condition of the Pointman robot necessitates a full replacement at this time (the robot will be kept as a backup). The Bellevue Police Department has tested and evaluated the RoboteX Avatar III (with Avatar pan-tilt-zoom camera and spare battery) as replacement for the Pointman robot. The cost of the RoboteX Avatar III is \$25,050 (AEL #03OE-07-ROBT). This investment will sustain the core capabilities of interdiction and disruption, screening, search, and detection, and on-scene security and protection.

The La Vista Police Department (LVPD) is requesting \$10,000 (AELs #03OE-03-LTPA, 03OE-03-SIGN, 04HW-01-HHWC, 04HW-01-INHW, 04AP-02-DGPGS, and 03OE-03-SIGN) to purchase and install equipment for the LVPD Command Post Vehicle (CPV). In 2014, the LVPD acquired a surplus rescue squad, made available as a result of the merger of the La Vista Volunteer Fire Department and Papillion Fire Department, with the intent of converting the vehicle to an operational CPV. To date, the CPV has been converted to an operational state however it is lacking in communication capabilities, data resources and on-scene incident management equipment. The CPV was devised with the intent of supporting La Vista Police personnel deployed at critical incidents to include Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) events, mass casualty events or any other incident requiring a unified command under the National Incident Management System (NIMS) system in La Vista and the surrounding communities through mutual aid. This investment will sustain the core capabilities of interdiction and disruption, screening, search, and detection, and on-scene security and protection.

The Omaha Police Department will replace an Allen Vanguard MKII mid-sized bomb robot originally purchased with FY2006 Urban Area Security Initiative (UASI) funding in October 2007 (PO #1144064; invoice #AVI00937 - \$53,770.28; serial #500-027). The Vanguard MKII robot was purchased to supplement the capabilities gained with the Remotec F6A robot (upgraded with FY2014 SHSG funding). In 2011, the Omaha Police Department coordinated with the Bellevue Police Department and Washington County Sheriff's Office to buy a set of three (3) Pointman small-sized robot platforms, one for each agency, to fill the void between the large-sized Remotec F6A and the medium-sized Vanguard MKII. The Vanguard MK2 is a medium-sized robot platform which allows for deployment in tight spaces such as buses and airplanes, yet with more capabilities than the small-sized Pointman robot platform. Each of the described robot platforms have unique use applications and are available to adjacent communities via mutual aid. The Vanguard MKII is currently non-operational due to a defective motherboard. Allen Vanguard, the original manufacturer, was bought by a third party approximately three years ago which no longer offers replacement parts for the MKII platform. The Omaha Police Department is requesting \$127,000 (AEL #03OE-07-ROBT) to replace the Vanguard MKII with the comparable Caliber T5 robot platform. This investment will sustain the core capabilities of interdiction and disruption, screening, search, and detection, and on-scene security and protection.

The Douglas County Sheriff's Office (DCSO) is requesting \$10,050 (AELs #02PE-02-HEAR and 03OE-01-CTAC) to purchase nine (9) sets of portable radio headsets for the DCSO Emergency Response Unit (ERU). The headsets will provide ERU members with ear protection and a nonintrusive way of communication during tactical situations. The headsets will be connected to and be used with portable radios purchased with UASI funding in budget year 2010. This investment will sustain the core capability of operational communications.

year 2010. This investment will sustain the Core Capability of Operational Communications.

Description	Receiving Agency	Cost/Unit	Quantity	Total	AEL
RoboteX Avatar III robot	Bellevue Police Dept.	\$ 25,050	1	\$ 25,050	03OE-07-ROBT
Command Post Vehicle	La Vista Police Dept.	\$ 10,000	1	\$ 10,000	Multiple
Caliber T5 Robot	Omaha Police Dept.	\$127,000	1	\$127,000	03OE-07-ROBT
Portable Radio Headsets	Douglas County Sheriff's Office	\$ 1,125	16	\$ 10,050	Multiple
				<b>Total: \$172,100</b>	

### National Priorities

Identify up to four National Priorities this Project supports.

National Priority 1

1. Alignment of HSGP to the National Preparedness System

National Priority 2

< SELECT >

National Priority 3

**Project Detail:**

**Provide a summary description of this Project on how it aligns with the selected National Priorities, Core Capabilities and identify the objectives that will be met during and after the grant performance period. Include in this description the detail that addresses the status of this Project as a new or ongoing project. Provide additional detail that identifies the Core Capability gap or gaps this Project intends to address.**

**Provide Project Detail Here, complete with money amounts, specific lists of equipment and what county/entity it is going to:**

<b>Budget:</b>					
Description	Receiving Agency	Cost/Unit	Quantity	Total	AEL #
RoboteX Avatar III Robot	Bellevue Police Dept.	\$ 25,050.00	1	\$ 25,050	03OE-07-ROBT
Command Post Vehicle	La Vista Police Dept.	See itemization below		\$ 10,000	-----
Streamlight Portable Scene Lights		\$ 716.00	4	\$ 2,864	03OE-03-LTPA
Flex-Safe Barrier - Hi-Vis Yellow		\$ 300.00	4	\$ 1,200	03OE-03-SIGN
Flex-Safe Sign - "POLICE LINE DO NOT CROSS"		\$ 26.00	4	\$ 104	03OE-03-SIGN
Flex-Safe Bag		\$ 16.25	4	\$ 65	03OE-03-SIGN
64GB iPad Air 2 (Wi-Fi model)		\$ 600.00	3	\$ 1,800	04HW-01-HHWD
Motorola HPD Modem w/ install		\$ 2,950.00	1	\$ 2,950	04HW-01-INHW
Mobile Data Computer (MDC) GPS equipment install		\$ 852.00	1	\$ 852	04AP-02-DGPS
28-inch reflective traffic cone (box of 5)		\$ 165.00	1	\$ 165	03OE-03-SIGN
Caliber T5 Bomb Robot	Omaha Police Dept.	\$127,000.00	1	\$127,000	03OE-07-ROBT
Portable Radio Headsets	Douglas County Sheriff's Office	\$ 1,125	16	\$ 10,050	02PE-02-HEAR 03OE-01-CTAC
				<b>Total: \$172,100</b>	

The La Vista Police Department (LVPD) Command Post Vehicle (CPV) will allow for improved operational coordination during on-scene incident response using the National Incident Management System (NIMS) framework. The CPV will function as incident command post. The CPV is currently equipped with outdated and unreliable halogen lights that are dependant on an external power source (i.e. generator). The proposed Streamlight Portable Scene Lights are LED lights with internal power capabilities, negating the need for an external power source. These lights would be used to provide a safe and well-lit staging area for responders and could be used to illuminate hazards in and around a scene. The Flex-Safe barriers with Police line signs and storage bags would provide compact, lightweight, and easily deployable barriers for crowd control and control access around the CPV perimeter. The use of traffic cones with reflective tape also would provide a safe traffic control device, as recommended by Traffic Incident Management Systems, when deployed adjacent to a major roadway. The three (3) Apple iPads would provide the incident command officers of the LVPD with a mobile solution to store electronic files that are currently only available to them in print form. These resources include Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) response protocols, NIMS resources, operational plans, and other references pertinent to incident management. Incident command staff will be able to work in and around the CPV allowing them to better access the situation and interact more effectively with on-scene first responder personnel. The Motorola High Performance Data (HPD) modem and GPS equipment will allow the LVPD to connect an existing Mobile Data Computer (MDC) workstation for further integration with LVPD resources. This integration will provide LVPD incident command staff with increased situational awareness during on-scene response.

This project will sustain the following core capabilities: interdiction and disruption, screening, search, and detection, and on-scene security and protection

security and protection.

### State Homeland Security Strategy

Select Primary Goal and up to Two Objectives that support this Project. Click in the box and < SELECT > from the Dropdown Menu. ( NOTE: Goals and Objectives should match... i.e. Goal A -- Objective A.1, A.2, A.3 etc. )

#### Primary Goal

GOAL 4: Increase the capabilities to interdict and disrupt terrorism and other criminal activities through collaborative statewide online information sharing and collection capabilities.

#### Primary Objective

< SELECT >

#### Secondary Objective

< SELECT >

Explain how this Projects supports the State Homeland Security Strategy goals and objectives. Please reference the relevant goal and objectives in the detail from the State Homeland Security Strategy.

#### Provide Project Goal & Objective Detail Here:

The Tri-County Law Enforcement Improvised Explosive Device (IED) project will enhance the Tri-County PET Region's Law Enforcement abilities to prevent, protect against, mitigate, and respond to manmade threats and hazards including but not limited to improvised explosive devices (IED). This project will sustain the following core capabilities: interdiction and disruption, screening, search, and detection, and on-scene security and protection.

In addition, this investment aligns with Goal #4 - Intelligence Sharing of the Nebraska State Homeland Security Strategy (2014-2016).

### Milestones

Identify all project Milestones and provide details for each milestone. Include Start and End dates that may have an affect on the implementation and completion of this Project.

Milestone #1

LVPD CPV: procurement and delivery of identified equipment.  
OPD Caliber T5 Bomb Robot: obtain and evaluate formal quotes for mid-size robot replacement.  
BPD RoboteX Avatar III Robot: finalize specifications and initiate bid/sole source process.  
DCSO Portable Radio Headsets: gathering quotes.

Start Date: 10/1/15

End Date: 12/31/15

Milestone #2

LVPD CPV: installation of identified equipment.  
OPD Caliber T5 Bomb Robot: initiate procurement process.  
BPD RoboteX Avatar III Robot: initiate procurement process.  
DCSO Portable Radio Headsets: initiate procurement process and deploy equipment.

Start Date: 1/1/16

End Date: 2/28/16

Milestone #3

OPD Caliber T5 Bomb Robot: finalize robot procurement and deployment.  
BPD RoboteX Avatar III Robot: finalize robot procurement and deployment.

Start Date: 3/1/16

End Date: 6/30/16

Milestone #4

Start Date:

End Date:

Milestone #5

Start Date:

End Date:

Milestone #6

Start Date:

End Date:

Milestone #7

Start Date:

End Date:

Milestone #8

Start Date:

End Date:

Milestone #9

Start Date:

End Date:

Milestone #10

Start Date:

End Date:

### Impact & Sustainability

Explain how this Project will impact your response capabilities, how the impact will be measured and how the solution areas will be sustained in regards to equipment maintenance, planning, exercising and training.

**Provide Impact & Sustainability Detail Here:**

The Tri-County PET Region Urban and Rural Law Enforcement committees are committed to sustaining existing equipment and capabilities. The Tri-County's FY2015 State Homeland Security Grant (SHSG) investment is a continuation of the FY2014 SHSG investment. Through the prudent use of SHSG and local matching funds (\$43,000 SHSG; \$24,605 local match funds), the Omaha Police Department was able to extend the life cycle of a thirteen (13) year old Remotec F6A bomb robot that was originally purchased using SHSG funding.

The proposed Bellevue Police Department and Omaha Police Department bomb robot replacements will further enhance the operational readiness of local Law Enforcement bomb squad units. As a result, adjacent communities depending on this equipment for mutual aid purposes will benefit from the continuing availability of this capability.

This project will sustain the following core capabilities: interdiction and disruption, screening, search, and detection, and on-scene security and protection.

**Project requested by:**

Tri-County Urban and Rural Law Enforcement Committees

### Project 4 Work Plan

Next

Agency / Region / Tribe:

Grant Fund:  Grant Year:  Date:

Project Allocation: Total \$\$  LE / IED \$\$  MOU \$\$

Investment Plan:

DHS Project Type:

Project Title:

Project Status:

**Note: If the Project includes making an MOU request to the SAA, include project details from the Project Description as part of an official letter requesting the MOU. The letter may be submitted prior to the work plan submission addressed to the SAA.**

#### Project Budget Work Plan Summary:

Total allocation must meet the 25% Law Enforcement Requirements.

	Equipment	Planning	Exercise	Training	M&A	TOTALS
Equipment Request:					N/A	-
PET Request:	N/A				N/A	-
LE / IED Request:		35,200.00			N/A	35,200.00
CBRNE Request:					N/A	-
MOU Request To SAA:					N/A	-
Total Project Request:	-	35,200.00	-	-	N/A	35,200.00

#### Project Baseline Overview:

##### Project Description:

Must provide details that identify who the recipients are, what they are receiving, where it is to be located, provided, implemented or installed. When the proposed project is to begin and end. Why this project is a priority for the region.

##### Provide High Level Baseline Detail Here:

The Tri-County Omaha Metro Area Terrorism Early Warning Group (OMATEWG) project will enhance the Tri-County PET Region's and State's ability to prevent, protect against, mitigate, and respond to a terrorist attack, natural disaster, or major emergency. This project will sustain the following core capabilities: intelligence and information sharing, interdiction and disruption, threats and hazards identification, public information and warning, and long-term vulnerability reduction.

The OMATEWG project will fund a part-time Analyst position within the Omaha Police Department (OPD) and OMATEWG website hosting ([www.otewg.org](http://www.otewg.org)) for the period of one (1) year. This investment will provide sustaining support for the Tri-County PET Region law enforcement community and the Nebraska Information and Analysis Center (NIAC). Furthermore, it will address goal #4 (Intelligence Sharing), objectives #4.2, 4.3, and goal #7 (Critical Infrastructure/Key Resources - CI/KR), objective #7.2 of the 2014-2016 Nebraska State Homeland Security Strategy (dated January 23, 2014).

The OMATEWG was established in September 2006 with the mission to create a comprehensive fusion process for terrorism related intelligence information and an effective method of reviewing and distributing this information in a timely manner. The OMATEWG is a conduit for intelligence information sharing both within the Tri-County PET Region and with the State-sponsored NIAC. To accomplish this mission, the OMATEWG engages with over 130 liaisons from a diverse set of community stakeholders, including local, state, and federal law enforcement agencies (incl. the FBI Joint Terrorism Task Force), local fire departments, local emergency management agencies, local health departments, municipal utilities, the private sector, and the U.S. military. The OMATEWG uses both in-person as well as electronic means of communication (website) to gather and disseminate threat data.

The OMATEWG directly supports the Nebraska Information and Analysis Center in order to enhance the metropolitan area's capability and the State's capability to prevent against, protect against, and respond to a terrorist attack, natural disaster, or major emergency.

##### Budget:

Description	Receiving Agency	Cost/Unit	Quantity	Total	AEL
OMATEWG Analyst Wages	Omaha Police Department	\$33,500/year	1 year	\$33,500	140.HF.01.ANSA
OMATEWG Website Hosting	Omaha Police Department	\$ 1,700/year	1 year	\$ 1,700	140.PO.01.PEOR

**Core Capabilities**

Select a Primary Core Capability and up to four Secondary Core Capabilities this project supports.

Primary Core Capability

Intelligence and Information Sharing

Select additional Core Capabilities that may apply

Secondary Core Capability (1)

Interdiction and Disruption

Secondary Core Capability (2)

Threats and Hazard Identification

Secondary Core Capability (3)

Public Information and Warning

Secondary Core Capability (4)

Long-term Vulnerability Reduction

**Project Detail:**

Provide a summary description of this Project on how it aligns with the selected National Priorities, Core Capabilities and identify the objectives that will be met during and after the grant performance period. Include in this description the detail that addresses the status of this Project as a new or ongoing project. Provide additional detail that identifies the Core Capability gap or gaps this Project intends to address.

**Provide Project Detail Here, complete with money amounts, specific lists of equipment and what county/entity it is going to:**

The Tri-County Omaha Metro Area Terrorism Early Warning Group (OMATEWG) project will enhance the Tri-County PET Region's and State's ability to prevent, protect against, mitigate, and respond to a terrorist attack, natural disaster, or major emergency. This project will sustain the following core capabilities: intelligence and information sharing, interdiction and disruption, threats and hazards identification, public information and warning, and long-term vulnerability reduction.

This investment will build, maintain, and sustain law enforcement terrorism prevention capabilities in the Tri-County PET Region in partnership with the Nebraska Information and Analysis Center (NIAC), other government agencies, and critical infrastructure/key resources (CI/KR) partners. This will enable the OMATEWG to sustain intelligence and information sharing capabilities, thereby assisting law enforcement to detect, deter, identify, respond to, and recover from terrorist threats, natural disaster, or major emergencies.

The OTEWG will continue to:

- Identify trends or patterns involving criminal and potential terrorist activities
- Identify vulnerabilities within the Tri-County PET Region
- Solicit the reporting of suspicious activities along with vetting and reporting of this information when appropriate
- Share information with local partners to raise awareness of potential threats.
- Share information with local and state decision-makers to assist in the prioritization of resources to mitigate known threats
- Educate partners and the public on the behaviors and indicators of potential threats
- Ensure the protection of privacy and civil liberties of individuals and all constitutionally protected activities

This investment aligns with the mission areas of prevention and protection outlined in the Presidential Policy Directive 8 (PPD-8). Furthermore, this investment directly supports the implementation of the National Infrastructure Protection Plan of 2013, by: *"Shar[ing] actionable and relevant information across the critical infrastructure community to build awareness and enable risk informed decision making."* (National Goal, page #5) and *"Enabl[ing] Risk-Informed Decision Making through Enhanced Situational Awareness."* (Call to Action #5, page 23)

This activity is accomplished through the use of a trained analyst, providing information to Tri-County public and private sector partners via in-person communication, co-hosting of training opportunities, and the OMATEWG website. The OMATEWG will continue to expand the existing community liaison base across all sectors to promote more effective information gathering and dissemination. Finally, the OMATEWG will increase education efforts for Tri-County stakeholders, partners, and the public during the FY2015 SHSG performance period.

**Budget:**

Description	Receiving Agency	Cost/Unit	Quantity	Total	AEL
OMATEWG Analyst Wages	Omaha Police Department	\$33,500/year	1 year	\$33,500	140.HF.01.ANSA

OMATEWG Website Hosting	Omaha Police Department	\$ 1,700/year	1 year	\$ 1,700	140.PO.01.PEOR
-------------------------	-------------------------	---------------	--------	----------	----------------

**State Homeland Security Strategy**

Select Primary Goal and up to Two Objectives that support this Project. Click in the box and < SELECT > from the Dropdown Menu. ( NOTE: Goals and Objectives should match... i.e. Goal A -- Objective A.1, A.2, A.3 etc. )

**Primary Goal**

**GOAL 4: Increase the capabilities to interdict and disrupt terrorism and other criminal activities through collaborative statewide online information sharing and collection capabilities.**

**Primary Objective**

**Objective 4.2 Increase awareness, training, exercising and usage of the Nebraska Fusion Information Network (NFIN) by increasing the number of users by 30% by December 2015**

**Secondary Objective**

**Objective 4.3 Increase awareness, training, exercising and usage of the Homeland Security Information Network (HSIN) by increasing the number of HSIN users by 30% by December 2015**

Explain how this Projects supports the State Homeland Security Strategy goals and objectives. Please reference the relevant goal and objectives in the detail from the State Homeland Security Strategy.

**Provide Project Goal & Objective Detail Here:**

The Tri-County Omaha Metro Area Terrorism Early Warning Group (OMATEWG) project will enhance the Tri-County PET Region's and State's ability to prevent, protect against, mitigate, and respond to a terrorist attack, natural disaster, or major emergency. This project will sustain the following core capabilities: intelligence and information sharing, interdiction and disruption, threats and hazards identification, public information and warning, and long-term vulnerability reduction.

The OMATEWG project will fund a part-time Analyst position within the Omaha Police Department (OPD) and OMATEWG website hosting (www.otewg.org) for the period of one (1) year. This investment will provide sustaining support for the Tri-County PET Region law enforcement community and the Nebraska Information and Analysis Center (NIAC). Furthermore, this investment will address:

Goal #4 - Intelligence Sharing (2014-2016 Nebraska Homeland Security Strategy, dated January 23, 2014)

- Objective 4.2: Increase awareness, training, exercising and usage of the Nebraska Fusion Information Network (NFIN)
- Objective 4.3: Increase awareness, training, exercising and usage of the Homeland Security Information Network (HSIN)

Goal #7 - Critical Infrastructure/Key Resources (CI/KR)

- Objective 7.2: Create and maintain a shared platform to share CIKR information

The OMATEWG utilizes the Homeland Security Information Network (HSIN), the Nebraska Fusion Information Network (NFIN), and the U.S. Department of Justice E-Guardian programs. In addition, the OMATEWG participates in the NIAC's Fusion Liaison Officer program.

The OMATEWG will continue to work closely with the NIAC in the collection of Tri-County PET Region CI/KR data and will participate in the Nebraska Preparedness Partnership (NPP) to build further relationship with area private sector businesses. This will directly enable the OMATEWG to achieve goal #7, objective 7.2 of the 2014-2016 Nebraska State Homeland Security Strategy. Finally, this investment will sustain the core capabilities of intelligence and information sharing, interdiction and disruption, threats and hazards identification, public information and warning, and long-term vulnerability reduction as outlined in the FEMA Core Capabilities, State Threat and Hazard Identification and Risk Assessment (THIRA),

**Milestones**

Identify all project Milestones and provide details for each milestone. Include Start and End dates that may have an affect on the implementation and completion of this Project.

- Milestone #1**

Increase usage of the OMATEWG website as a means of information gathering and exchange.

Start Date:  End Date:
- Milestone #2**

Increase the number of OMATEWG liaisons in the Tri-County PET Region by at least 10%.

Start Date:  End Date:
- Milestone #3**

Coordinate the initiation of a comprehensive Asset Protection Response System (APRS) software program in relation to the gathering and sharing of critical infrastructure/key resources (CI/KR) in the Tri-County PET Region.

Start Date:  End Date:
- Milestone #4**

Assist the Nebraska Information Analysis Center (NIAC) in increasing awareness and usage of the Homeland Security Information Network (HSIN) and the Nebraska Fusion Information Network (NFIN).

### Impact & Sustainability

Explain how this Project will impact your response capabilities, how the impact will be measured and how the solution areas will be sustained in regards to equipment maintenance, planning, exercising and training.

**Provide Impact & Sustainability Detail Here:**

The Tri-County Omaha Metro Area Terrorism Early Warning Group (OMATEWG) project will enhance the Tri-County PET Region's and State's ability to prevent, protect against, mitigate, and respond to a terrorist attack, natural disaster, or major emergency. This project will sustain the following core capabilities: intelligence and information sharing, interdiction and disruption, threats and hazards identification, public information and warning, and long-term vulnerability reduction.

The OMATEWG will assist the Tri-County PET Region in detecting and deterring terrorist-based attacks. This will be accomplished by increasing and sustaining the capabilities to interdict and disrupt terrorist and other criminal activities through collaborative online information sharing and collection. The OMATEWG will continue to increase awareness, training, exercise and usage of the Nebraska Fusion Information Network (NFIN) and the Homeland Security Information Network (HSIN) in partnership with the Nebraska Information and Analysis Center (NIAC), other government agencies, and critical infrastructure/key resources (CI/KR) partners. The OMATEWG will strive to increase the number of Tri-County PET Region liaisons and in turn assist the activities, goals, and objectives of the NIAC. The impact will be measured through the number of liaisons, the increased amount of information being shared, and participation in training and exercise opportunities. OMATEWG personnel will continue to seek out relevant training to stay abreast of current trends in the areas of terrorism and intelligence and information sharing.

CBRNE Request:					N/A	-
MOU Request To SAA:					N/A	-
<b>Total Project Request:</b>	<b>115,000.00</b>	<b>-</b>	<b>-</b>	<b>31,500.00</b>	<b>N/A</b>	<b>146,500.00</b>

**Project Baseline Overview:**

**Project Description:**

Must provide details that identify who the recipients are, what they are receiving, where it is to be located, provided, implemented or installed. When the proposed project is to begin and end. Why this project is a priority for the region.

**Provide High Level Baseline Detail Here:**

The Tri-County Cyber Security and Situational Awareness project will enhance the ability to prevent, protect against, mitigate, and respond to cyber attacks and other threats. This investment will enhance and sustain the core capabilities of cybersecurity and operational communications.

The Tri-County Communications Committee is requesting \$146,500 for SANS Institute Cyber Security training (AEL #120TP-01-TRPL), computer network intrusion detection and logging software/hardware (AEL #05NP-00-SEIM), Tri-County Aerial Photography (AEL #04AP-03-GISD), and the upgrade of the Tri-County Common Operating Picture (COP) (AEL #04AP-03-GISS) originally initiated with FY2008 State Homeland Security Grant (SHSG) and maintained with FY2010 Urban Area Security Initiative (UASI) and FY2011 SHSG funding.

**Training:**

- SANS Institute Cyber Security Training: The Douglas-Omaha Technology Commission (DotComm) and Sarpy County IT Department are requesting \$19,500 to send three participants to the SANS Institute Cyber Security training. Participants will learn about current cyber security and cyber threat trends. This information will be shared with both IT departments and used to guide future regional cyber security initiatives. This investment will enhance and sustain the core capability of cybersecurity.
- Common Operating Picture (COP) Upgrade: Douglas County Geographic Information Systems (GIS) is requesting \$12,000 for training (professional services) that will enable GIS personnel to upgrade the COP. Douglas County GIS was able to acquire the software upgrade free of charge but requires training to support the implementation. The COP was originally developed using FY2008 State Homeland Security Grant (SHSG) and maintained with FY2010 Urban Area Security Initiative (UASI) and FY2011 SHSG funding. The COP upgrade along with the updated aerial photography increase the level of situational awareness for Tri-County first responders. This investment will sustain the core capability of operational communications.

**Equipment:**

- Network Intrusion Detection/Logging: The Douglas-Omaha Technology Commission (DotComm) and Sarpy County IT Department are requesting \$40,000 for the purchase of a network intrusion detection and logging hardware/software system. This project is a continuation of a cyber security end-user awareness initiative and purchase of network vulnerability scanning capabilities with FY2010 UASI funding and the expansion to real-time vulnerability scanning capabilities with FY2013 SHSG funding. It is critically important to expand intrusion logging capabilities that allow IT personnel and forensic investigators to conclude what network weaknesses were exploited.
- Aerial Photography: Douglas County Geographic Information Systems (GIS) is requesting \$75,000 to contract for updated aerial photography (ortho and oblique) of the Omaha metropolitan statistical area (MSA). Updated aerial photography will benefit the upgraded Common Operating Picture (COP) application and Tri-County first responders by increasing the level of situational awareness. Aerial photography has become the single most-widely used geographic dataset by public safety and health personnel. Emergency management staff, first responders, emergency communication/911, public health, and other related public safety personnel in the Tri-County PET Region use this visual data on a daily basis. GIS photography has become a critical dataset for emergency planning, operations, and response. This investment will enhance the core capability of operational communications.

**Budget Overview:**

Description	Receiving Agency	Cost/Unit	Quantity	Total	AEL
COP Upgrade	Douglas County GIS/Tri-County	\$ 12,000	1	\$ 12,000	04AP-03-GISS
SANS Cyber Security Training:	DotComm/Sarpy IT	\$ 6,500	3	\$ 19,500	120TP-01-TRPL
Intrusion Detection/Logging	DotComm/Sarpy IT	\$ 40,000	1	\$ 40,000	05NP-00-SEIM
Aerial Photography	Douglas County GIS/Tri-County	\$ 75,000	1	\$ 75,000	04AP-03-GISD

**National Priorities**

Identify up to four National Priorities this Project supports.

National Priority 1

1. Alignment of HSGP to the National Preparedness System

National Priority 2

National Priority 3

< SELECT >

National Priority 4

< SELECT >

**Core Capabilities**

Select a Primary Core Capability and up to four Secondary Core Capabilities this project supports.

Primary Core Capability

Cybersecurity

Select additional Core Capabilities that may apply

Secondary Core Capability (1)

Operational Communications

Secondary Core Capability (2)

< SELECT >

Secondary Core Capability (3)

< SELECT >

Secondary Core Capability (4)

< SELECT >

**Project Detail:**

**Provide a summary description of this Project on how it aligns with the selected National Priorities, Core Capabilities and identify the objectives that will be met during and after the grant performance period. Include in this description the detail that addresses the status of this Project as a new or ongoing project. Provide additional detail that identifies the Core Capability gap or gaps this Project intends to address.**

**Provide Project Detail Here, complete with money amounts, specific lists of equipment and what county/entity it is going to:**

The Tri-County Cyber Security and Situational Awareness project will enhance the ability to prevent, protect against, mitigate, and respond to cyber attacks and other threats. This project will enhance and sustain the core capabilities of cybersecurity and operational communications.

The Tri-County Communications Committee is requesting \$146,500 for SANS Institute Cyber Security training (AEL #120TP-01-TRPL), computer network intrusion detection and logging software/hardware (AEL #05NP-00-SEIM), Tri-County Aerial Photography (AEL #04AP-03-GISD), and the upgrade of the Tri-County Common Operating Picture (COP) (AEL #04AP-03-GISS) originally initiated with FY2008 State Homeland Security Grant (SHSG) and maintained with FY2010 Urban Area Security Initiative (UASI) and FY2011 SHSG funding.

The upgraded COP software will add enhanced functionality such as real-time event feeds from outside data sources like weather alerts, news alerts, and social media integration. This enables emergency management and first responder users to visualize geotagged public social media feeds in real-time on a map interface. It further allows emergency management personnel in the Emergency Operations Center (EOC), incident commanders, and field personnel to view one synchronized common map. Other features include field photo upload/geotagging, map sketching tools to aid on-the-fly planning and operational changes, and dedicated communication channels to enable custom groups to view a custom map across all supported devices.

**Budget Overview:**

Description	Receiving Agency	Cost/Unit	Quantity	Total	AEL
COP Upgrade	Douglas County GIS/Tri-County	\$ 12,000	1	\$ 12,000	04AP-03-GISS
SANS Cyber Security Training:	DotComm/Sarpy IT	\$ 6,500	3	\$ 19,500	120TP-01-TRPL
Intrusion Detection/Logging	DotComm/Sarpy IT	\$ 40,000	1	\$ 40,000	05NP-00-SEIM
Aerial Photography	Douglas County GIS/Tri-County	\$ 75,000	1	\$ 75,000	04AP-03-GISD
				<b>Total: \$146,500</b>	

**State Homeland Security Strategy**

Select Primary Goal and up to Two Objectives that support this Project. Click in the box and < SELECT > from the Dropdown Menu. ( NOTE: Goals and Objectives should match... i.e. Goal A – Objective A.1, A.2, A.3 etc. )

**Primary Goal**

GOAL 4: Increase the capabilities to interdict and disrupt terrorism and other criminal activities through collaborative statewide online information sharing and collection capabilities.

**Primary Objective**

< SELECT >

**Secondary Objective**

< SELECT >

Explain how this Projects supports the State Homeland Security Strategy goals and objectives. Please reference the relevant goal and objectives in the detail from the State Homeland Security Strategy.

**Provide Project Goal & Objective Detail Here:**

The Tri-County Cyber Security and Situational Awareness project will enhance the ability to prevent, protect against, mitigate, and respond to cyber attacks and other threats. This investment will enhance and sustain the core capabilities of cybersecurity and operational communications and aligns with the following 2014-2016 Nebraska State Homeland Security Strategy (1/23/2014) goals:

- Goal #2 - Communications
- Goal #4 - Intelligence Sharing

**Milestones**

Identify all project Milestones and provide details for each milestone. Include Start and End dates that may have an affect on the implementation and completion of this Project.

Milestone #1

SANS Institute Cyber Security Training: register and complete training, share information with Douglas-Omaha Technology Commission (DotComm) and Sarpy County IT Department personnel.

Start Date: 10/1/15

End Date: 10/1/16

Milestone #2

Network Intrusion Detection/Logging:  
Write up software/hardware specifications, conduct request for proposal (RFP) or bid process (or sole source)  
Evaluate bids/RFPs  
Determine product and initiate procurement process  
Install and deploy network intrusion detection/logging system

Start Date: 10/1/15

End Date: 12/31/16

Milestone #3

Common Operating Picture (COP) Upgrade:  
Schedule and complete training, initiate COP upgrade

Start Date: 10/1/15

End Date: 2/28/16

Milestone #4	Aerial Photography: Acquire updated aerial photography	
	Start Date: <input type="text" value="1/1/16"/>	End Date: <input type="text" value="12/31/16"/>
Milestone #5	<input type="text"/>	
	Start Date: <input type="text"/>	End Date: <input type="text"/>
Milestone #6	<input type="text"/>	
	Start Date: <input type="text"/>	End Date: <input type="text"/>
Milestone #7	<input type="text"/>	
	Start Date: <input type="text"/>	End Date: <input type="text"/>
Milestone #8	<input type="text"/>	
	Start Date: <input type="text"/>	End Date: <input type="text"/>
Milestone #9	<input type="text"/>	
	Start Date: <input type="text"/>	End Date: <input type="text"/>
Milestone #10	<input type="text"/>	
	Start Date: <input type="text"/>	End Date: <input type="text"/>

**Impact & Sustainability**

**Explain how this Project will impact your response capabilities, how the impact will be measured and how the solution areas will be sustained in regards to equipment maintenance, planning, exercising and training.**

**Provide Impact & Sustainability Detail Here:**

The Tri-County Cyber Security and Situational Awareness project will enhance the ability to prevent, protect against, mitigate, and respond to cyber attacks and other threats. This investment will enhance and sustain the core capabilities of cybersecurity and operational communications.

The network intrusion detection and logging hardware/software system and Common Operating Picture (COP) upgrade are continuations of existing Tri-County initiatives. In addition, the purchase of new Tri-County aerial photography will enhance the accuracy of the Common Operating Picture and provide first responders with a more up-to-date visual for response areas. The value of timely aerial photography was especially evident during the 2011 Missouri River flood where before and after pictures aided the damage assessment process.

MOU Request To SAA:					N/A	-
<b>Total Project Request:</b>	<b>111,889.00</b>	<b>40,000.00</b>	<b>5,000.00</b>	<b>4,400.00</b>	<b>N/A</b>	<b>161,289.00</b>

**Project Baseline Overview:**

**Project Description:**

Must provide details that identify who the recipients are, what they are receiving, where it is to be located, provided, implemented or installed. When the proposed project is to begin and end. Why this project is a priority for the region.

**Provide High Level Baseline Detail Here:**

The Omaha Metropolitan Medical Response System (OMMRS) project will sustain and maintain capabilities of OMMRS affiliate programs in the Tri-County PET Region. In particular, this project will address the following core capabilities: planning, operational coordination, community resilience, mass care services, and public health and medical services.

**Planning:**

- Medical Reserve Corps (MRC) Coordinator: OMMRS is requesting \$20,000 (AEL #140.HF.01.PDSA) for the support of a part-time MRC coordinator over a two-year period. The MRC provides support to OMMRS-area hospitals, including decontamination (decon) support, cache support, and medical volunteer support for various trainings and exercises. The MRC program was previously housed with the United Way of the Midlands but recently transferred to CHI Health. The Tri-County MRC program has been without a part-time coordinator since Fall 2014, resulting in decreased program activity and lack of volunteer engagement (previous coordinator funding provided by FY2014 and FY2013 SHSG). This investment will sustain the core capabilities of planning and community resilience.
- Conferences & Meetings: OMMRS is requesting \$10,000 (AEL #140.CP.01.CONF) to support education and training opportunities for the OMMRS coordinator and members of OMMRS affiliate. This investment will sustain the core capability of planning.
- Behavioral Health Conference: OMMRS is requesting a total of \$10,000 (AEL #140.CP.01.CONF) to host two (2) annual Nebraska Disaster Behavioral Health Conferences (\$5,000/each) in partnership with the University of Nebraska Public Policy Center (PPC). These conferences will provide an education and training opportunity to Nebraska behavioral health professionals. The Nebraska Disaster Behavioral Conference has been supported by OMMRS with MMRS/SHSG funding since 2006. This investment will sustain the core capabilities of planning and community resilience.

**Exercise:**

- Cybersecurity Tabletop Exercise (TTX) & Hospital Evacuation Full-Scale Exercise (FSE): OMMRS is requesting \$5,000 (AEL #110.EX.01.COEX) to facilitate one (1) Cybersecurity TTX and one (1) Hospital evacuation FSE during a two-year period. These exercises, identified by the Hazard Vulnerability Assessment (HVA), will focus on severe weather threats, evacuation procedures, and cyber threat by testing previously grant-funded equipment and response protocols. An after action report (AAR) and improvement plan (IP) will be developed after each exercise. The Hospital evacuation FSE will be conducted at the Bellevue Medical Center in Bellevue, NE. This investment will sustain the core capabilities operational coordination, community resilience, and public health and medical services.

**Training:**

- MRC Continuing Education: OMMRS is requesting \$4,400 (AEL #140.CC.01.ECCP) to pay for MRC volunteers continuing education units through the Iowa Western Community College (IWCC). The MRC provides support to OMMRS-area hospitals, including decontamination (decon) support, cache support, and medical volunteer support for various trainings and exercises. MRC volunteers can be activated by OMMRS area hospitals in case of a mass casualty and/or a mass fatality event in the OMMRS area, providing services such as triage, treatment, and assisting with mortuary management. MRC volunteers have to undergo mandatory training as well as continuing education to remain operational readiness in case of activation. This investment will sustain the core capabilities of community resilience and public health and medical services.

**Equipment:**

- MRC Supplies: OMMRS is requesting \$1,400 (AEL #21GN-00-CCEQ) for MRC supplies that support the Tri-County MRC program. This investment will sustain the core capabilities of community resilience and public health and medical services.

• OMMRS Equipment Sustainment: OMMRS is requesting a total of \$10,489 for one-time use equipment and pharmaceutical sustainment. This

• OMMRS Equipment Sustainment: OMMRS is requesting a total of \$110,469 for one-time use equipment and pharmaceutical sustainment. This investment will sustain the core capabilities of public health and medical services which would otherwise be lost if personal protective equipment (PPE) and pharmaceuticals were allowed to expire. These include:

- N-95 Respirators: \$4,576 (AEL #01AR-06-DISP)
- Nitrile Gloves: \$16,211 (AEL #01EM-03-GLME)
- Ciprofloxacin: \$17,850 (AEL #09PH-03-CPRO)
- Cyanokit: \$59,168 (AEL #09PH-05-CYKT)

Community Resilience

Secondary Core Capability (3)

Mass Care Services

Secondary Core Capability (4)

Operational Coordination

#### Project Detail:

**Provide a summary description of this Project on how it aligns with the selected National Priorities, Core Capabilities and identify the objectives that will be met during and after the grant performance period. Include in this description the detail that addresses the status of this Project as a new or ongoing project. Provide additional detail that identifies the Core Capability gap or gaps this Project intends to address.**

**Provide Project Detail Here, complete with money amounts, specific lists of equipment and what county/entity it is going to:**

The Omaha Metropolitan Medical Response System (OMMRS) project will sustain and maintain capabilities of OMMRS affiliate programs in the Tri-County PET Region. In particular, this project will address the following core capabilities: planning, operational coordination, community resilience, mass care services, and public health and medical services.

OMMRS, as member of the multi-jurisdictional and multi-discipline Tri-County PET Sub-Committee, coordinates all planning, exercise, and training (PET) activities through this body. OMMRS PET activities are included in the Tri-County's multi-year PET calendar. OMMRS will utilize the Homeland Security Exercise and Evaluation Process (HSEEP) to design, develop, conduct, evaluate, and provide improvement plans all exercise activities. An after action report (AAR) and improvement plan (IP) will be developed after each OMMRS exercise.

#### FY2015 Omaha Metropolitan Medical Response System (OMMRS) Budget Detail:

Description	Receiving Agency	Cost/Unit	Quantity	Total	AEL #
MRC Coordinator Salary	Medical Reserve Corps	\$10,000/year	2 years	\$ 20,000	140.HF.01.PDSA
MRC Continuing Ed. Units (CEU)	Medical Reserve Corps	\$ 2,200/year	2 years	\$ 4,400	140.CC.01.ECCP
MRC Supplies	Medical Reserve Corps	\$ 700/year	2 years	\$ 1,400	21GN-00-CCEQ
Behavioral Health Conference	OMMRS	\$ 5,000/year	2 years	\$ 10,000	140.CP.01.CONF
Conferences & Meetings	OMMRS	\$ 5,000/year	2 years	\$ 10,000	140.CP.01.CONF
Exercises (TTX & FSE)	OMMRS area hospital	\$ 2,500/each	2 exercises	\$ 5,000	110.EX.01.COEX
N-95 Respirators	OMMRS	\$ 32/case	143 cases	\$ 4,576	01AR-06-DISP
Nitrile Gloves	OMMRS	\$ 13/case	1,247 cases	\$ 16,211	01EM-03-GLME
Ciprofloxacin	OMMRS	\$ 0.07/tablet	255,000 tablets	\$ 17,850	09PH-03-CPRO
Cyanokits	OMMRS	\$ 688/kit	86 kits	\$ 59,168	09PH-05-CYKT
Diazepam Autoinjectors	OMMRS	\$ 13.20/each	420 units	\$ 12,684	09PH-07-DIAZ
				<b>Total: \$161,289</b>	

**State Homeland Security Strategy**

Select Primary Goal and up to Two Objectives that support this Project. Click in the box and < SELECT > from the Dropdown Menu. ( NOTE: Goals and Objectives should match... i.e. Goal A – Objective A.1, A.2, A.3 etc. )

**Primary Goal**

GOAL 5: Improve core capabilities within the state of Nebraska for any health related events, up to and including any terrorist health events.

**Primary Objective**

Objective 5.2 Conduct eight (8) exercises dealing with a health-related event (all hazards or terrorism) by August 2016 (one per Planning Exercise Training Region) that are multi-jurisdictional involve multiple agencies (including Nebraska Emergency Management, Nebraska Department of Health and Human Services) and are whole community focused

**Secondary Objective**

Objective 5.3 Create improvement plans to address gaps revealed in after action reports (AARs) within 30 days of receiving the AAR

Explain how this Projects supports the State Homeland Security Strategy goals and objectives. Please reference the relevant goal and objectives in the detail from the State Homeland Security Strategy.

**Provide Project Goal & Objective Detail Here:**

The Omaha Metropolitan Medical Response System (OMMRS) project will support the sustainment of capabilities to detect, identify, verify, respond to, and recover from health-related community emergencies, including acts of terrorism and natural disasters.

OMMRS will continue to sustain and support medical surge capacity, mass prophylaxis, mass fatality planning, chemical, biological, radiological, nuclear, and explosive (CBRNE) response, pre-hospital treatment and triage, behavioral health activities, and the Medical Reserve Corps (MRC). OMMRS will work closely with affiliated program including but not limited to public health, emergency management, and other stakeholders to enhance and sustain the capability to respond to all-hazard events. OMMRS will seek to improve and sustain core capabilities for health related events as stated in goal #5 of the 2014-2016 Nebraska State Homeland Security Strategy (dated January 23, 2014).

Goal #5 - Health and Medical

- Objective 5.2: Conduct exercises dealing with health related events (all hazards or terrorism)
- Objective 5.3: Create improvement plans to address gaps revealed in after action reports (AAR)
- Objective 5.4: Complete all planning, training, and resource acquisition as identified in the AARs
- Objective 5.5: Provide supplies for medical surges as identified in AARs

**Milestones**

Identify all project Milestones and provide details for each milestone. Include Start and End dates that may have an affect on the implementation and completion of this Project.

Milestone #1

Provide funding for part-time Medical Reserve Corps (MRC) Coordinator, MRC continuing education units (CEU), and MRC supplies.

Start Date: 10/1/15

End Date: 8/31/17

Milestone #2

Conduct 2016 and 2017 Behavioral Health Annual Conferences

Start Date: 7/1/16

End Date: 7/31/17

Milestone #3

Conduct Nebraska Medicine Bellevue full-scale evacuation exercise (FSX)

Start Date: 4/1/16

End Date: 5/31/16

Milestone #4

Other planned exercises identified by the Hazard Vulnerability Assessment (HVA)

Start Date: 10/1/15

End Date: 8/31/17

Milestone #5

Attend relevant in-and out-of-state conferences and meetings

Start Date: 10/1/15

End Date: 8/31/17

Milestone #6

Equipment - N-95 - Obtain quotes complete proper documentation order equipment distribute as appropriate

Start Date: 10/1/15

End Date: 6/30/16

Milestone #7

Nitrile Gloves - Obtain quotes complet proper documentation order product and distribute as appropriate

Start Date: 10/1/15

End Date: 6/30/16

Milestone #8

Ciprofloxacin obtain update cost quote order through pharmacists and distribute as appropriate

Start Date: 10/1/15

End Date: 1/31/16

Milestone #9

Cyanokits obtain updated cost quote order through pharmacists and distribute as appropriate

Start Date: 6/1/16

End Date: 10/31/16

Milestone #10

Diazepam obtain updated cost quote order through pharmacists and distribute as appropriate

Start Date: 12/1/15

End Date: 3/31/16

**Impact & Sustainability**

Explain how this Project will impact your response capabilities, how the impact will be measured and how the solution areas will be sustained in regards to equipment maintenance, planning, exercising and training.

**Provide Impact & Sustainability Detail Here:**

The Omaha Metropolitan Medical Response System (OMMRS) will continue to sustain and support medical surge capacity, mass prophylaxis, mass fatality planning, chemical, biological, radiological, nuclear, and explosive (CBRNE) response, pre-hospital treatment and triage, behavioral health activities, and the Medical Reserve Corps (MRC). OMMRS will work closely with affiliated program including but not limited to public health, emergency management, and other stakeholders to enhance and sustain the capability to respond to all-hazard events. OMMRS will seek to improve and sustain core capabilities for health related events as stated in goal #5 of the 2014-2016 Nebraska State Homeland Security Strategy (dated January 23, 2014).

**OMMRS project impact:**

- Increase OMMRS response capabilities for healthcare evacuation, triage, and pre-hospital treatment.
- Enhance OMMRS medical surge capacity and community resilience capabilities.
- Design, develop, conduct, and evaluate using the Homeland Security Exercise and Evaluation Process (HSEEP); Improvement plan suggestions will be incorporated.

**Project Baseline Overview:**

**Project Description:**

Must provide details that identify who the recipients are, what they are receiving, where it is to be located, provided, implemented or installed. When the proposed project is to begin and end. Why this project is a priority for the region.

**Provide High Level Baseline Detail Here:**

The Omaha Fire Department (OFD) Hazardous Material (HazMat) MOU project will enhance the capabilities to prevent, protect against, mitigate, and respond to chemical, biological, radiological, nuclear, and explosive (CBRNE) incidents. The OFD Special Operations/HazMat Response Team is one of 10 HazMat MOU teams in Nebraska, serving as a regional asset for mutual aid HazMat response. This project will enhance and sustain the following core capabilities: screening, search, detection and environmental response/health and safety, mass search and rescue operations, and operational communication.

The OFD Special Operations/HazMat Response Team is requesting \$20,000 for one (1) HazMat AreaRAE monitoring/detection equipment sensor/chip replacement cycle, one (1) Supplied Air Respirator (SAR) Rescue Air Cart, and one (1) Con-Space Rescue Communications Kit.

**Equipment:**

- **AreaRAE Sensor/Analyzer Chip Replacement Cycle (AEL #21GN-00-MAIN):** The OFD Special Operations/HazMat Response Team is requesting \$5,200 for one (1) sensor replacement cycle of the grant-funded AreaRAE system and one (1) analyzer chip replacement cycle of the Drager Chip Measurement System (CMS). Both detection/monitoring systems utilize disposable components. These components have expiration dates and are consumed and/or compromised as they are deployed in the field. This investment will sustain the core capability of screening, search, and detection.

- **SAR Rescue Air Cart (AEL #01AR-01-SAR):** The OFD Special Operations/HazMat Response Team is requesting \$4,100 for the replacement of one (1) SAR Rescue Air Cart, to be utilized while operating in hazardous environments/conditions. The purchase of this equipment will allow for the replacement of an outdated and often out-of service system. This investment will enhance and sustain the core capability of environmental response/health and safety and mass search and rescue operations.

- **Con-Space Rescue Communications Kit (AEL #03OE-01-CTAC):** The OFD Special Operations/HazMat Response Team is requesting \$10,700 for the purchase of one (1) Con-Space Rescue Communications Kit to greatly improve direct communication capabilities of response personnel operating in hazardous environments/conditions. This system will augment and enhance current communication capabilities by providing a hard-wired, intrinsically safe method of direct communication between response personnel and victims in hazardous environments/conditions. This investment will enhance and sustain the core capability of environmental/health and safety, mass search and rescue operations, and operational communication.

**Budget Overview:**

Description	Receiving Agency	Cost/Unit	Quantity	Total	AEL
Sensor/Chip Replacement Cycle	Omaha Fire Dept.	\$ 5,200	1	\$ 5,200	21GN-00-MAIN
SAR Rescue Air Cart	Omaha Fire Dept.	\$ 4,100	1	\$ 4,100	01AR-01-SAR
Con-Space Rescue Comm. Kit	Omaha Fire Dept.	\$10,700	1	\$10,700	03OE-01-CTAC
				<b>Total: \$20,000</b>

Select Primary Goal and up to Two Objectives that support this Project. Click in the box and < SELECT > from the Dropdown Menu. ( NOTE: Goals and Objectives should match... i.e. Goal A – Objective A.1, A.2, A.3 etc. )

**Primary Goal**

**GOAL 3: Ensure Nebraska Hazardous Materials (HazMat) Response Program resources are available to assist local entities respond to any unplanned release of chemicals anywhere in the state.**

**Primary Objective**

**Objective 3.4 Maintain and repair existing CBRNE detection and response equipment for the Nebraska Hazardous Materials Response Program by December 31, 2015**

**Secondary Objective**

**Objective 3.5 Prioritize and purchase equipment for CBRNE detection and response equipment for the Nebraska Hazardous Materials Response Program by December 31, 2015**

Explain how this Projects supports the State Homeland Security Strategy goals and objectives. Please reference the relevant goal and objectives in the detail from the State Homeland Security Strategy.

**Provide Project Goal & Objective Detail Here:**

The Omaha Fire Department (OFD) Hazardous Material (HazMat) MOU project will enhance the capabilities to prevent, protect against, mitigate, and respond to chemical, biological, radiological, nuclear, and explosive (CBRNE) incidents. The OFD Special Operations/HazMat Response Team is one of 10 HazMat MOU teams in Nebraska, serving as a regional asset for mutual aid HazMat response. This project will enhance and sustain the following core capabilities: screening, search, detection and environmental response/health and safety, mass search and rescue operations, and operational communication.

The OFD HazMat MOU project will support the following goals and objectives of the 2014-2016 Nebraska State Homeland Security Strategy (dated January 23, 2014):

Goal #3 (Hazardous Materials Response)

- Objective 3.4: Maintain and repair existing CBRNE detection and response equipment for the Nebraska Hazardous Materials Response Program.
- Objective 3.5: Prioritize and purchase equipment for CBRNE detection and response equipment for the Nebraska Hazardous Materials Response Program.

**Milestones**

Identify all project Milestones and provide details for each milestone. Include Start and End dates that may have an affect on the implementation and completion of this Project.

Milestone #1

Replace expired AreaRAE sensors and Drager CMS analyzer chips to sustain current capabilities.

Start Date: 10/1/15

End Date: 12/31/15

Milestone #2

Purchase and deploy one (1) SAR Rescue Air Cart augmented with training for response personnel.

Start Date: 10/1/15

End Date: 12/31/15

Milestone #3

Purchase, implement, and deploy one (1) Con-Space Rescue Communications Kit (5 piece) augmented with training for response personnel.

Start Date: 9/1/15

End Date: 12/31/15

Milestone #4

Start Date:

End Date:

Milestone #5

Start Date:

End Date:

Milestone #6

Start Date:

End Date:

Milestone #7

Start Date:

End Date:

Milestone #8

Start Date:

End Date:

Milestone #9

Start Date:

End Date:

Milestone #10

Start Date:

End Date:

**Impact & Sustainability**

**Explain how this Project will impact your response capabilities, how the impact will be measured and how the solution areas will be sustained in regards to equipment maintenance, planning, exercising and training.**

**Provide Impact & Sustainability Detail Here:**

The Omaha Fire Department (OFD) Hazardous Material (HazMat) MOU project will enhance the capabilities to prevent, protect against, mitigate, and respond to chemical, biological, radiological, nuclear, and explosive (CBRNE) incidents. The OFD Special Operations/HazMat Response Team is one of 10 HazMat MOU teams in Nebraska, serving as a regional asset for mutual aid HazMat response. This project will enhance and sustain the following core capabilities: screening, search, detection and environmental response/health and safety, mass search and rescue operations, and operational communication.

The OFD Special Operations/HazMat Response Team is requesting \$20,000 for one (1) HazMat AreaRAE monitoring/detection equipment sensor/chip replacement cycle, one (1) Supplied Air Respirator (SAR) Rescue Air Cart, and one (1) Con-Space Rescue Communicatio Kit.

This investment is a critical step toward sustaining OFD Special Operations/HazMat Response Team capabilities to serve as one of ten Nebraska HazMat MOU cities.

LE / IED Request:					N/A	-
CBRNE Request:	14,990.00			5,010.00	N/A	20,000.00
MOU Request To SAA:					N/A	-
<b>Total Project Request:</b>	<b>14,990.00</b>	<b>-</b>	<b>-</b>	<b>5,010.00</b>	<b>N/A</b>	<b>20,000.00</b>

**Project Baseline Overview:**

**Project Description:**

Must provide details that identify who the recipients are, what they are receiving, where it is to be located, provided, implemented or installed. When the proposed project is to begin and end. Why this project is a priority for the region.

**Provide High Level Baseline Detail Here:**

The Bellevue Fire Department (BFD) Hazardous Material (HazMat) MOU project will enhance the ability to prevent, protect against, mitigate, and respond to chemical, biological, radiological, nuclear, and explosive (CBRNE) incidents. The BFD HazMat Response Team is one of 10 HazMat MOU teams in Nebraska, serving as a regional asset for mutual aid HazMat response. This project will enhance and sustain the following core capabilities: screening, search, and detection and environmental response/health and safety.

The BFD HazMat Response Team is requesting \$20,000 for HazMat monitoring/detection equipment calibration gas sustainment, Level A and Level B HazMat suit replacement, a HazMat Spill Containment Berm, a Scott Ska-Pak supplied air system, and funding for training overtime and backfill.

**Training:**

- Training overtime and backfill: The BFD HazMat Response Team is requesting \$5,010 (AEL #1400T-01-OTBF) for overtime and backfill of approximately 10-15 HazMat Response Team personnel attending a Hazardous Materials Refresher. This investment will sustain the core capability of environmental response/health and safety.

**Equipment:**

- Calibration Gas Sustainment: The BFD HazMat Response Team is requesting \$1,890 (AEL #21.GN.00.MAIH) for calibration gas sustainment of grant-funded AreaRAE QRAE2 and MultiRAE HazMat detection meters. These meters require daily, weekly, and monthly calibration and maintenance. The calibration process involves the use of consumable gas which must be replenished as it is used. This investment will sustain the core capability of screening, search, and detection.
- Level A and B HazMat Suit Replacement: The BFD HazMat Response Team is requesting \$4,200 (AEL #01.CB.02.ENSM) for the replacement of three (3) Level A and twenty four (24) Level B HazMat suits. This investment will sustain the core capability of environmental response/health and safety.
- HazMat Spill Containment Berm: The BFD HazMat Response Team is requesting \$7,000 (AEL #03OE-03-CACS) for the purchase of one (1) HazMat spill containment berm, a tarp used to contain a full-size tanker spill or leak. It effectively protects the surrounding environment from HazMat runoff (tarp has pop-up sides) and simplifies the clean-up process. The berm tarp will replace smaller tarps missing the pop-up sides which are currently in use by the BFD HazMat Response Team. This investment will enhance the the BFD HazMat Response Team's training capabilities related to HazMat spill containment and will subsequently enhance the core capability of environmental response/health and safety.
- Scott Ska-Pak Supplied Air System: The BFD HazMat Response Team is requesting \$1,900 (AEL #01AR-01-SCBA) for the purchase of one (1) Scott Ska-Pak Supplied Air System, to be used in hazardous environments. This is the second replacement cycle for an obsolete air respirator system; the first cycle having been completed with the purchase of three (3) Ska-Paks using FY2013 State Homeland Security Grant (SHSG) HazMat MOU funding in October 2014. This investment will enhance and sustain the core capability of environmental response/health and safety.

**Budget Overview:**

Description	Receiving Agency Cost/Unit	Quantity	Total	AEL	
Training Overtime/Backfill	Bellevue Fire Dept.	\$ 5,010	1	\$ 5,010	1400T-01-OTBF
Calibration Gas Sustainment	Bellevue Fire Dept.	\$ 1,890	1	\$ 1,890	21.GN.00.MAIH
Level A HazMat Suits	Bellevue Fire Dept.	\$ 3,000	3	\$ 3,000	01.CB.02.ENSM
Level B HazMat Suits	Bellevue Fire Dept.	\$ 50	24	\$ 1,200	01.CB.02.ENSM

**State Homeland Security Strategy**

Select Primary Goal and up to Two Objectives that support this Project. Click in the box and < SELECT > from the Dropdown Menu. ( NOTE: Goals and Objectives should match... i.e. Goal A – Objective A.1, A.2, A.3 etc. )

**Primary Goal**

GOAL 3: Ensure Nebraska Hazardous Materials (HazMat) Response Program resources are available to assist local entities respond to any unplanned release of chemicals anywhere in the state.

**Primary Objective**

Objective 3.4 Maintain and repair existing CBRNE detection and response equipment for the Nebraska Hazardous Materials Response Program by December 31, 2015

**Secondary Objective**

Objective 3.5 Prioritize and purchase equipment for CBRNE detection and response equipment for the Nebraska Hazardous Materials Response Program by December 31, 2015

Explain how this Projects supports the State Homeland Security Strategy goals and objectives. Please reference the relevant goal and objectives in the detail from the State Homeland Security Strategy.

**Provide Project Goal & Objective Detail Here:**

The Bellevue Fire Department (BFD) Hazardous Material (HazMat) MOU project will enhance the ability to prevent, protect against, mitigate, and respond to chemical, biological, radiological, nuclear, and explosive (CBRNE) incidents. The BFD HazMat Response Team is one of 10 HazMat MOU teams in Nebraska, serving as a regional asset for mutual aid HazMat response. This project will enhance and sustain the following core capabilities: screening, search, and detection and environmental response/health and safety.

The Bellevue Fire Department (BFD) Hazardous Material (HazMat) MOU project will support the following goals and objectives of the 2014-2016 Nebraska State Homeland Security Strategy (dated January 23, 2014):

Goal #3 (Hazardous Materials Response)

- Objective 3.2: Conduct Department of Homeland Security 40 hour/80 hour training for all HazMat teams.
- Objective 3.4: Maintain and repair existing CBRNE detection and response equipment for the Nebraska Hazardous Materials Response Program.
- Objective 3.5: Prioritize and purchase equipment for CBRNE detection and response equipment for the Nebraska Hazardous Materials Response Program.

**Milestones**

Identify all project Milestones and provide details for each milestone. Include Start and End dates that may have an affect on the implementation and completion of this Project.

Milestone #1

Monthly Calibration of detection and metering equipment.

Start Date: 10/1/15

End Date: 12/31/16

Milestone #2

Replacement of three (3) Level A and twenty four (24) Level B HazMat Suits

Start Date: 10/1/15

End Date: 12/31/16

Milestone #3

Purchase of a HazMat spill containment berm and Scott Ska-Pak supplied air respirator system

Start Date: 10/1/15

End Date: 12/31/16

Milestone #4	Conduct HazMat training for Bellevue Fire Department HazMat Response Team personnel	Start Date: <input type="text" value="10/1/15"/>	End Date: <input type="text" value="12/31/16"/>
Milestone #5		Start Date: <input type="text"/>	End Date: <input type="text"/>
Milestone #6		Start Date: <input type="text"/>	End Date: <input type="text"/>
Milestone #7		Start Date: <input type="text"/>	End Date: <input type="text"/>
Milestone #8		Start Date: <input type="text"/>	End Date: <input type="text"/>
Milestone #9		Start Date: <input type="text"/>	End Date: <input type="text"/>
Milestone #10		Start Date: <input type="text"/>	End Date: <input type="text"/>

**Impact & Sustainability**

**Explain how this Project will impact your response capabilities, how the impact will be measured and how the solution areas will be sustained in regards to equipment maintenance, planning, exercising and training.**

**Provide Impact & Sustainability Detail Here:**

The Bellevue Fire Department (BFD) Hazardous Material (HazMat) MOU equipment replacement and maintenance project will ensure the operational readiness of the BFD HazMat Response Team. This will be accomplished through proper maintenance, calibration, and replacement of previously grant-funded equipment, addition of equipment, and training necessary to enhance and sustain the core capabilities of screening, search and detection and environmental response/health and safety.
